AUTHORITY: Sec. 644 of the Dept. of Energy Organization Act, Pub. L. 95-91, 91 Stat. 565 (42 U.S.C. 7254); Atomic Energy Act of 1954, as amended (42 U.S.C. 2011 et seq.) “User Fee Statute”, 31 U.S.C. 483a, 42 U.S.C. 2111, 2112 and 2201.

SOURCE: 45 FR 70430, Oct. 24, 1980, unless otherwise noted.

### § 1009.1 Purpose and scope.

(a) This part establishes Department of Energy policy for establishing prices and charges for Department materials and services sold to organizations and persons outside the Federal Government.

(b) This part applies to all elements of the Department except the Federal Energy Regulatory Commission.

### § 1009.2 Definitions.

For the purposes of this regulation:

(a) *Allocable cost* means a cost allocable to a particular cost objective (i.e., a specific function, project, process, or organization) if the costs incurred are chargeable or assignable to such cost objectives in accordance with the relative benefits received or other

## 10 CFR Ch. X (1-1-07 Edition)

equitable relationships. Subject to the foregoing, a cost is allocable if:

(1) It is incurred solely for materials or services sold;

(2) It benefits both the customer and the Department in proportions that can be approximated through use of reasonable methods, or

(3) It is necessary to the overall operation of the Department and is deemed to be assignable in part to materials or services sold.

(b) *Byproduct material* means any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to the process of producing or utilizing special nuclear material.

(c) *Charges* means an accumulation of job related costs for materials and services sold by the Department.

(d) *Commercial price* means the price that a willing buyer is currently paying or would pay a willing seller for materials and services in the market.

(e) *Direct cost* is any cost which can be identified specifically with a particular final cost objective.

(f) *Full cost* includes all direct costs and all allocable costs of producing the material or providing the service consistent with generally accepted accounting principles. Direct costs and allocable costs may include, but are not limited to, the following cost elements:

(1) Direct labor.

(2) Personnel fringe benefits.

(3) Direct materials.

(4) Other direct costs.

(5) Processing materials and chemicals.

(6) Power and other utilities.

(7) Maintenance.

(8) Indirect cost, i.e., common costs which cannot be directly assigned to specific cost objectives and are therefore allocated to cost objectives in a systematic cost allocation process.

(9) Depreciation which includes depreciation costs that are directly associated with facilities and equipment utilized, and allocated depreciation costs for support and general facilities and equipment.

(10) Added factor includes general and administrative costs and other support costs that are incurred for the

benefit of the Department, an organizational unit or a material or service as a whole.

(g) *Prices* means the monetary amounts generally established and published for recurring sales of the same materials and services.

(h) *Source material* means uranium or thorium.

(i) *Special nuclear material* means plutonium, uranium enriched in the isotope 233 or in the isotope 235, or any materials artificially enriched by any of the foregoing. Special Nuclear Material does not include source material.

### § 1009.3 Policy.

(a) The Department's price or charge for materials and services sold to persons and organizations outside the Federal Government shall be the Government's full cost for those materials and services, unless otherwise provided in this part.

(b) Exceptions from the Department pricing and charging policy may be authorized in accordance with the following provisions:

(1) Prices and charges for byproduct material sold pursuant to 42 U.S.C. 2111 and 2112 et seq. shall be either the full cost recovery price or the commercial price, whichever is higher, except that lower prices and charges may be established by the Department if it is determined that such lower prices and charges (i) will provide reasonable compensation to the Government for such material, (ii) will not discourage the use of or the development of sources of supply independent of the DOE of such material, and (iii) will encourage research and development. In individual cases, if (ii) and (iii) cannot be equally accommodated, greater weight will be given to encouragement of research and development.

(2) Prices and charges for materials and services sold pursuant to 42 U.S.C. 2201 shall be either the full cost recovery price or the commercial price, whichever is higher, except that lower prices and charges may be established by the Department if it is determined that such lower prices and charges will provide reasonable compensation to the Government and will not discourage the development of sources of sup-

ply independent of the DOE of such material.

### § 1009.4 Exclusions.

This part shall not apply when the amount to be priced or charged is otherwise provided for by statute, Executive Order, or regulations. This part does not apply to:

(a) Fees, penalties and fines established by the Economic Regulatory Administration of DOE.

(b) Power marketing and related activities of the Alaska Power Administration, the Bonneville Power Administration, the Southeastern Power Administration, the Southwestern Power Administration, and the Western Power Administration.

(c) Crude oil, natural gas and other petroleum products and services by or from the Naval Petroleum and Oil Shale Reserves.

(d) Uranium enriching services, source material, and special nuclear material.

(e) Requests for information under the Freedom of Information Act and the Privacy Act.

(f) Energy data and information provided by the Energy Information Administration.

(g) Crude oil and related materials and services from the Strategic Petroleum Reserve.

(h) The disposal of excess and surplus property.

(i) Access permits for uranium enrichment technology issued in accordance with 10 CFR part 725.

(j) Materials and services provided pursuant to a cooperative agreement, research assistance contract or grant, or made available to a DOE contractor in connection with a contract, the primary purpose of which is to procure materials or services for DOE.

### § 1009.5 Supersessions.

Prices which appear in FEDERAL REGISTER Notices previously published by the Department, or its predecessor agencies, for materials and services covered by this rule are hereby superseded.
